Special Board of Trade Meeting

An enthusiastic Board of Trade Meeting was held on Friday night last in McCue's Hall with Mr. F. H. Hunter in the chair, in the unavoidable absence of the secretary, Mr. T. B. Riley. Dr. Washburn, acted as secretary pro-tem.

Correspondence was read and received some discussion.

The chairman announced that the C.P.R. had stated that they would open a road from the north crossing to the station close to the west side of the track to avoid wet places outside the park lands.

The executive committee reported the advertising media as drawn up by the advertising committee. After a lengthy discussion it was decided to abandon the proposal to advertise in the eastern papers in favor of pamphlets.

Modern Woodmen of America

The Annual Celebration of Memorial Day will take place on Sunday 2nd June. All members of the Bowden Camp No. 13774 of Modern Woodmen of America are requested to assemble in McCue's Hall at three o'clock prompt in readiness to parade to the Methodist Church for Divine Service at half past three, when the Chaplain Rev. F. E. Davies will preach. Mr. E. J. Buchanan is arranging a special team for this parade. Members willing to assist in decorating the church kindly meet on Saturday afternoon and evening.

Every member is urged to be present at this Memorial Service the first Sunday in June, and visiting brethren will be cordially welcomed.

C. E. MORFITT, Consul
R. L. LOWE, Clerk.

Local Jottings

The Local Creamery wishes to announce that they are now in a position to receive sweet cream for which a price of 35 cents per pound butterfat will be paid for the balance of this month. Prices for the month of June will be announced before the end of May.

The Council have appointed C. A. Johnston chief of the fire brigade with full power to act. He has nominated J. McBlane and G. Christie, to the engines and will, he presumes hold weekly practices or meeting in the future.

L. Bernard has sold his team of Greys and purchased a heavier team which he got from Lacombe.

The subscriptions for the prize funds for the Baseball match and sports on the 24th of this month have come in handsomely, and a good programme has consequently been arranged.

The Methodist Ladies Aid held a special meeting at the home of Mrs. Welton on Monday last.

Read the article on page 8. "Something to Take Notice Of."

The ditch and drain ordered by the Council on Main Street is almost completed and that thoroughfare ought in future to be in good condition.

T. B. Millar of the Laurentia Milk Co. has just paid another visit to Bowden in connection with the Bowden Creamery plant which is in preparation for the balance of the machinery now on its way here. The local concern will start operations in June and will be the first Laurentia Milk Plant in Alberta to put out a bottle of this famous product—a great reason why intended settlers should see Bowden first.

The Council have had erected, new lamps, on trial, from G. W. West of Innisfail for a week. So far the results seem to be very satisfactory. The first burning of lights took place last Saturday evening.

Mr. E. J. Buchanan, of the Union Bank has been approached by the secretary of the Rosebud league, with a view of getting the Bowden base ball team to become affiliated. It is quite possible that Bowden will enter the league.

A most enjoyable service was held in St. Matthews Church Sunday evening, the preacher being Rev. Washburn of Ontario; though arranged on short notice, the church was well filled and the services of Rev. Washburn were greatly appreciated.

If you have POTATOES to sell, see Howard and Morfitt, on or before the 31st inst. They are making up a car for shipment.

The Village Tax Notices have been sent out this week and the Council are anxious that prompt payment of the taxes be made. They are carrying out some much needed improvements which all ratepayers should and doubtless do appreciate and as the Council are financing these improvements out of current revenue it is hoped the ratepayers will assist them in promptly paying their taxes.

A new addition is being built onto the west side of the Bowden Blacksmith Shop. He says his business has increased enormously within the past few months and consequently more room is wanted for storage purposes.

Hail Insurance—H. E. Shenfield is now in a position to furnish particulars and rates charged on the new system of Hail Insurance. Those interested are invited to call at his office.

BADLY UL CERATED LEG

Zam-Buk Cured Her When So Bad
She Had to Use Crutches.

For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards of 164 Amherst St., writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad I could hardly walk. I sent for my doctor, and he told me I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches.

"The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to be in bed. This I knew was impossible, as I had a family to attend to.

"My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was also able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores I would say, 'try Zam-Buk.'"

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions and all other injuries and diseases. All druggists and stores 50c box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c tablet.

The Twin Cities.

The tourist was for the first time viewing the Panama city of Colon and the American city of Cristobal sitting side by side at the Atlantic end of the canal.

"What is it they call the American city?" he asked.

"Cristobal."

"That is too bad," he said "it should be Colon and Semicolon."

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weary, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. A New Horse or Kendall's Spavin Cure?

Save the difference between the cost of a good horse and \$1.00—the cost of a bottle of Kendall's Spavin Cure. You can cure a Spavin, Splint, Ringbone, Bony Growth or Lameness, with it, like thousands have done. Read these letters—they will prove that Kendall's is

The One Safe, Reliable Cure.

Canal, Ont., Dec. 14th, 1910.
Please send me your Treatise on the Horse. I have been using your Spavin Cure for a number of years with great success, having during that time cured a Spavin on a valuable horse and have also treated lameness, swellings, etc. effectively.
Christian Bender
W. W. Brown, Content, Ala., writes July 19th, 1910
"I have used your Spavin Cure for years, and have completely cured Foot Rot in my herd of cattle, and Splints and Spavins on horses. I find that it is a cure wherever it is faithfully applied.
No need to worry about your horse if you have a bottle of Kendall's Spavin Cure on hand for emergency. Get a bottle from your druggist at once. Don't take a substitute. The great book, 'Treatise on the Horse,' free, of druggists, or write to
Dr. B. J. Kendall Co., Essexburg Falls, Vt.

W. N. U. 296.

Demonstration by Comparison.

Before the use of chloroform had become so general as it is in our day, a quack advertised that he would draw teeth painlessly. A patient was placed in the chair, the instrument applied to his tooth with a wrench, followed by a groan from the unpleasantly surprised sufferer.

"Stop!" said the dentist. "Compose yourself. I told you I would give you no pain, but I only gave you that twinge to show you Dr. Carter's operation."

Again the instrument was applied to the tooth, and another tug and another roar.

"Now, don't be impatient. That is Dr. Logan's method," said the dentist.

Another application, another tug, another roar.

"Now, pray do be quiet. That is Dr. Tate's way. I see very well that you do not like it, and I am not surprised."

By this time the tooth hung by a thread, and, whipping it out, the operator exultingly exclaimed: "That's my model of extracting teeth. You are now able to compare it with the operations of Carter, Logan and Tate."

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its affect upon the blood, and that a tonic medicine is needed to put it right. Indeed there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago, the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood, which drives out impurities, stimulates every organ and brings a feeling of new health and energy to the weak, tired, ailing men, women and children. If you are out of sorts give the medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

She—No, I can never marry you, but we can always be friends.
He—Well, that is one of the advantages of getting married.—Life

Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

"What is a counter-irritant?" asked Mrs. Smithers.

"A counter-irritant," replied Smithers, "is a woman who makes the shopman pull down everything from the shelves for two hours, and then buys a pennyworth of hairpins."

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Lawyer (to witness)—Now, then, Mr. Murphy, give us your last residence.

Murphy—Faith, sor, I dunno; but it'll be the cemetery, O'm thinkin'.

An Imperial Chicken Fancier.

It may be interesting to owners of chicken farms to know that a genuine enthusiast in the pastime of poultry-raising lived and flourished as far back as the year 410 A.D. when Alaric the Goth was busying himself about the sack of Rome. The Rev. Dr. George Hodges' "Saints and Heroes" is the authority for the story.

Only the Roman emperor seemed unmoved by this tremendous calamity. He was in a safe retreat at Ravenna when the news came. It is remembered of Honorius that there were only two matters in which he was ever known to show interest. One was the safety of his own imperial person, the other was the raising of hens, in which he was very successful. His favorite hen was named Rome.

"Your Majesty Rome has perished!" they came crying.
"Why," he said, "only an hour ago she was feeding out of my hand!"

And when they told him it was the capital of the world that had been destroyed he was much relieved.

A Costly Gamble.

Mr. Marshall Hall, the well-known K. C., tells the following story of a County Court action in which he took part: "I remember many years ago being taken down to a County Court. I looked at the brief and found that the whole amount to be sued for was \$30, while my own fee was more than five times that sum, and I could not make the matter out. It was an action for trespass—seizing a horse in execution, and the sort of horse it was can be imagined—and in the end I won. The case took the whole day. Then when it was all over I heard that there was a bet of \$2,500 depending on the result of the case. The parties were all horse people, and they knew they would get a fair run for their money. They used me for the purpose of a gamble.

Never starch linen that is to be stored for a long time; it is apt to crack, and if left for many years will rot. Rinse the articles quite free from starch, dry, and fold away, if possible, in blue paper. The blue paper keeps them from turning yellow.

Ashmore—Did your bulldog get a prize at the dog show?
Ashley—Yes, he got a thousand-dollar-prize poodle.

BEST AND HEALTH TO MOTHER AND CHILD.
"Mrs. WISLOW'S SOOTHING SYRUP has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN, CURES WIND COLIC, and is the best remedy for DIARRHCEA. It is absolutely harmless. Be sure and ask for 'Mrs. Wislow's Soothing Syrup,' and take no other kind. Twenty-five cents a bottle."

Protege of a Countess.
Liverpool.—The Countess of Warwick is bearing the expense of the musical education of a Yorkshire mill lad named Buckle, whose violin playing attracted her attention at a Leeds concert.

MOONEY'S BISCUITS ARE THINNER

That makes them neater, crisper, daintier, more appetizing;

The one biscuit good enough to take the place of your own baking;

Fresh as the biscuits from your own oven.

Think what that means! Freedom from a broiling kitchen—leisure on the porch or in the parlor. Time to do the little knick-knacks that have been neglected.

MOONEY'S PERFECTION SODA BISCUITS

Are the creamiest, crispest crackers made.

They are baked in the big sanitary factory in Winnipeg—right at your very door.

Use MOONEY'S and be sure of a biscuit that is absolutely fresh; a biscuit that will satisfy the family,

In tempting packages or sealed tins as you prefer.

"LET MOONEY DO IT"

Ninety-nine.

Have you ever noticed what frequent use is made of the number ninety-nine?

If you buy a leasehold house, you will probably find that the tenure of the property lasts for a period of ninety-nine years. Should the doctor come to examine your lungs, he will most likely tell you to say ninety-nine, and to repeat it several times, while he listens through a stethoscope to the passage of air through your breathing apparatus.

Sometimes the number is pronounced "ninety-and-nine," which makes it appear more full-sounding and emphatic. In this form, it is very prominent in a famous revival hymn which was popular some years ago, and which is founded on the parable of the hundred sheep, one of which wandered away and got lost, while the "ninety-and-nine" remained safe in the fold. This parable also shows that in ancient times the number had a recognized place in the every-day language.

A train which runs every day in the year between Toulon and Paris is known as the "rapide des fleurs"—the cut-flower express. This train carries nothing but cut flowers, in baskets and pasteboard boxes, for the Paris market. The violets of Hyeres, the roses and carnations of Antibes and the Roman hyacinths of Alhoulles and Carqueirannes are on the flower stands of Paris in 18 hours from the time they are growing on the shores of the Mediterranean. A good many are shipped also to the cities of Germany and Belgium and even as far as Vienna and St. Petersburg. The packages are handled by a special train crew that sorts them out like mail matter. The speed at which this "cut-flower express" runs is greater than that of any other train in Europe and it is almost invariably on time.

Lady Irene (aged four)—Mamma, why do people have noses?

The Duchess—Common people, my dear, have noses that they may sneeze and smell, but high-born people like us have noses that they may express their contempt for common people."

"Did you say I was a dead beat?"
—Nope. I never said you were dead."
—Houston Post.

The bootjack and the cat they met;
She dodged and yelled with glee.
Young man, you'll need that bootjack yet.

"Then you'll remember me."

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil, which acts like magic. All similarly troubled should lose so time is applying but its power is in no way expressed in its splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Life on the Planets.

The possible existence of life on the planets is discussed in the "Journal of the Royal Astronomical Society of Canada" by Professor R. G. Aitken of the Lick Observatory, who summarizes the latest conclusions of astronomers upon this question. Professor Aitken considers that the existence of a high form of life on the moon, Jupiter, Saturn, Mercury, Uranus or Neptune is extremely improbable. Although Venus greatly resembles the earth, it is generally believed by astronomers that the day and the year of the planet are of equal duration. In that case no life can exist upon it. Concerning Mars, Professor Aitken says that "astronomers are not agreed as to whether the much-discussed markings are canals or merely earthquake cracks. There are no permanent bodies of water on the planet. The best that can be said is that although the temperature on Mars is very low, there may be on the planet, to a limited extent, the conditions essential to life; probably only vegetable and low-order animal life, but no beings of intelligence."

An Unquenchable Fire.

A Yonkers, N. Y., physician had a negro cook who was a chronic complainer. One day she came in groaning with a misery in her side and the doctor offered to prescribe for her.

He went to the dining room, poured out a spoonful of game sauce, stirred in some English mustard and sprinkling a little salt and pepper in, handed the dose to the sufferer, telling her to take it down at one swallow.

It was two weeks or more before Mary turned up with a new pain. This time it was in her other side. Her employer offered to mix her another dose of his medicine.

"No, suh," said Mary firmly. "I'm much obliged to you, doctor; but I've done got my mind made up never agin to drink nothing what water won't squench."

Kidder—That fellow makes a living writing light fiction.

Kiddee—He doesn't look like a literary chap.

Kidder—He's not. He makes out statements for the electric light company.

CAT'S PAW RUBBER HEELS
Tread softly—Step safely.

CAT'S PAW RUBBER SOLES
Embody the patented features of Cat's Paw Heels. 150

In one year over 33,000 offenders have been brought before British Juvenile Courts.

M-L PURE PAINTS

When you do any painting inside or outside the house better be sure of best results by using M-L Pure Paints.

Colors are clearer and cleaner and have a more lasting gloss than most paints. And you can do a good job with less M-L Paint than with other kinds. Spreads easier, covers more surface, and because of a special ingredient lasts about twice as long.

Forty-seven colors for interior and exterior work of all kinds. Sold only in this full measure. Made by Imperial Varnish & Color Co., Limited, Toronto.

M-L FLAT WALL COLORS—16 shades—are just the thing to carry out the new styles of stencil decoration. Artistic, sanitary, durable—can be washed like painted woodwork. 709

Keeping His Hand in

The hanger of the Calgary In-
dustrial Exhibition, June 28th to
July 5th, is being distributed.
The illustration depicts a cowboy,
whose occupation has presumably
been cut off by the encroachments
of the grain grower, "keeping his
hand in" by roping a sheaf of
wheat from among several shown
on the opposite side of a barbed-
wire fence. The delight of the
cowboy in the success of his ach-
ievement is equalled by the seem-
ing reluctance of the inanimate
sheaf to be drawn towards its
natural enemy and by the terror of
the horse at witnessing the frivol-
ous nature of his rider's employ-
ment.

Anyone wishing a copy of the
hanger can have one mailed by
writing to E. L. Richardson, Man-
ager, Calgary Industrial Exhi-
bition, Victoria, Park Calgary,
Alberta.

Highway Post is Stolen by Rivals

Vandals uproot sign planted with
great ceremony Criminal
action to be taken

New Westminster, B. C. May
23—The bitter spirit of rivalry ex-
isting in the towns of Alberni and
Port Alberni, on the west coast of
Vancouver Island, culminated a
few days ago in an act of vandal-
ism, the uprooting of the first post
of the Canadian Highway, planted
with imposing ceremony on Sat-
urday, May 4, by W. J. Kerr, Pres-
ident of the Canadian Highway As-

sociation, in the presence of an
assembly including many of the
prominent figures of British Col-
umbia and the state of Washing-
ton.

Port Alberni has been a keen
aspirant for the honor of providing
the sight of the post, but, because
of the advantages of location, this
has been awarded to the old town.

A few days after the post had
been planted, in the dead of night,
three of the residents of Port Al-
berni stole out from their town,
armed with pickaxes, shovels and
crowbars, and proceeded to the old
town, where they quickly uprooted
the initial signpost of the Cana-
dian Highway, and carried it in
triumph to Port Alberni. The
disappearance of the sign was the
one subject of conversation in Al-
berni the following morning, and
early in the day an emergency
meeting of the prominent men was
called, and immediate action de-
cided upon. Concentrated sus-
picion pointed due south, but even
before a definite plan of action
was decided upon a group of men
was seen approaching from Port
Alberni, bringing with them the
desecrated sign. The bearers of
the sign post tendered the old town
profuse apologies from the Mayor
A. E. Waterhouse and the mem-
bers of his council. Thus the
matter ended in so far as the Al-
bernis are concerned, but it is pro-
bable that more will be heard of it,
as the officers of the Canadian
Highway Association are extreme-
ly annoyed at the liberty taken.

The Tampering with signposts is
the criminal offence in Canada, and
liable to serve punishment. Sev-
eral prosecutions have been insti-
tuted by the Pacific Highway As-
sociation in the past few months,
when proof could be adduced
against some party or parties who
had wilfully tampered with or mu-
tilated their signs.

In order to mitigate against the
possibility of the repetition of this
fool trick, it is the intention of the
officers of the association to take
proceedings against the Port Al-
berni men who tore up the post,
and to make this an example that
will serve as a warning to others.
Speaking on this subject yester-
day, President W. J. Kerr said:
"I look upon the tearing up of the
first post of the Canadian High-
way as an act of desecration, in
every way as objectionable as
would be the removal of the corner-
stone of a sacred edifice. This
post was planted with due form
and ceremony in the presence of
over 1,200 people, men of prom-
inence from all the coast cities and
from Seattle, Tacoma and Port-
land taking part in the function.
It certainly is humiliating to these
gentlemen to think that, after the
expense and inconvenience to
which they were put, such an un-
fortunate thing should happen.
I only trust that the incident will
mark the culmination of the feel-
ing between the towns of Alberni
and Port Alberni, and that from
now on these two places will cul-
tivate a more friendly spirit and
some of that sweetness of dispo-
sition and charity which makes
for the betterment of all things."

Swat the Mosquito

Since mosquitoes breed only in
standing water their elimination is
a matter only of finding the possible
breeding places. Once these are
found it is perfectly easy to keep

mosquitoes down. Every recep-
tacle that can contain water should
be emptied and so placed that it
will not fill again the next time it
rains. If it is a tank or barrel or
cistern which must be kept filled,
it is easy to fit it with a tight
screen cover that will keep out the
female mosquito that is looking
for a place to lay her eggs.

The draining of marshes and
useless ponds is usually compar-
atively easy, but where this is
impossible the application to the
surface of the water of a very
small quantity of kerosene oil will
kill all the immature mosquitoes
and prevent the application to the
adult mosquitoes from depositing
their eggs. The oil must be so
applied that it will spread over the
entire surface of the water. This
can be done by pouring small
quantities at intervals around the
edge or by spraying marshy areas
with any kind of a spraying device
such as used in orchards.

The oil forms a thin film that
prevents the young mosquito from
coming to the surface to breathe.
If the body of water be a large one
a heavy wind will sometimes break
the film of oil and in a few sun-
ny days much of the oil will
evaporate.

Frequent attention and a very
little kerosene will, however, keep
a good-sized farm entirely free
from mosquitoes all summer. One
ounce of kerosene is sufficient for
fifteen square feet of water surface.

The common mosquito requires
but ten days for developing from
the laying of the egg to the final
hatching of the full-fledged, biting
mosquito. The malaria mosquito
takes about twenty-one days from
egg to adult. Water that stands
less than ten days, therefore, is
not dangerous, but a large brood
of mosquitoes may be hatched in
a roadside puddle that completely
evaporates in two weeks. Very
often depressions that hold water
temporarily go unnoticed by rea-
son of high grass that surrounds
them, and this is frequently the
case in city parks, which are the
most prolific sources of mosquitoes
in most northern cities.

The common inland mosquito
deposits its eggs, 250 to 400 at one
time, on the surface of the water
at night. The mass of eggs is
held firmly together and floats
like a small raft. The eggs hatch
in from fifteen to twenty hours,
producing the larvae—the "wig-
glers" often seen in rainwater bar-
rels and cisterns.—Frank Parker
Stockbridge in the World's Work
Magazine.

Much Building Planned at Tofield

A statement just issued by the
secretary of the Tofield Board of
Trade shows that at the present
time there are no less than three
separate companies preparing to
install brick plants this season;
and in view of the large list of
projected buildings and residences
in this section for construction
this year there can be a little
doubt as to the demand for the
output. With the prospect of un-
limited supplies of natural gas as
well as of coal mined in the vicin-
ity, the prospects for the city's de-
velopment as a manufacturing
and industrial centre are regarded
as especially bright, while the
completion of the Provincial

Trunk Pacific road from Elmon-
ton to Tofield this year is now
practically assured. The latter is
one of the most comprehensive
pieces of road building yet under-
taken by the provincial govern-
ment.

OLD LADY ALMOST CRAZY WITH ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my foot. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small spot showed upon my left ankle, I was worried and sent for a doctor. He said it was eczema. He drew a small hole from the ankle about the size of a match and about an inch long. The small hole grew to about the size of an apple, and the eczema spread to the knee. The doctors never could heal the hole in the ankle. The whole foot ran water all the time.

"My husband and my sons were up night and day wheeling me from one room to another in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daybreak. The pain was so intense I was almost crazy. In fact, I would lose my reason for hours at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot than she exclaimed, 'Mrs. Finnegan, why in the world don't you try the Cuticura Remedies?' Being disgusted with the doctors and their medicines, and not being able to sleep at all, I decided to give the Cuticura Soap and Cuticura Ointment a trial. After using them three days that night I slept as sound as a silver dollar for eight long hours. I awoke in the morning with but very little pain. In fact, I thought I was in heaven. After using the Cuticura Remedies for three months I was perfectly restored to health, thanks to the Cuticura Soap and Ointment. I will be sixty-four years of age my next birthday, hale and hearty as present." (Signed) Mrs. Julia Finnegan, 2234 Hebert St., St. Louis, Mo., Mar. 7, '11. Cuticura Soap and Ointment are sold throughout the world. Send to Potter D. & C. Corp., 47 Columbus Ave. Boston, U. S. A., for free sample of each with 32-p. book.

When your order comes from the grocer's see that he has sent you WINDSOR TABLE SALT. Why should you bother with salt that "cakes" as hard as a rock, when you can get WINDSOR SALT? Windsor Salt is all salt—absolutely pure clean crystals, and every grain a perfect crystal. It costs no more. 58

HAUNTED

BY GERTRUDE WARDEN

Author of "Dancing Leaves," "The Sentimental Sex," "The Crime of Monte Carlo," etc., etc.

WARD, LOCK & CO., LIMITED
London, Melbourne and Toronto

(Continued.)

There is the same young man as come afore," Granmer Jessop said. "I seed my leady letten'en drough the geates. An' he brought that vorren girl wi' en yester mornen'. You did let en drough, Susan."

Susan looked as though she would have liked to express her opinion about the 'foreign girl,' but Harry was to eager to find himself in Lady Annes presence to linger by the lodge. Lady Anne was in the rose garden, the young woman said. She would announce him?

But he wanted to take her by surprise, and as he remembered quite well where the rose garden was situated, he made his way to it, crossing in front of the house and going round by the chapel into the cloister court.

A large rectangular space, bordered on one side by the house and out-building, on the opposite side by a ruined wall, and the other two by the fragments of the cloister walks, overhung by ivy and creepers, contained Lady Anne's rose garden, which would have been celebrated had it been known to the world.

Here in this delicious riot of color and perfume, Harry pictured to himself that this exquisite woman, capable of infinite love and tenderness, soothed her lonely soul with visions of beauty. The old favorites were there—heavy Merechal Niel, and great pale La France, and dainty orange-coloured Alan Richardsons, and cabbage roses of vivid pink; new combinations of color rivalled them, roses of greenish white, roses almost black in their outer leaves, with blood red inner petals, and even the wild rose, clambering over the broken arches of the cloisters of windows as though they belonged in the palace of the Sleeping Beauty.

As to his queen rose herself, he could see her standing near an old sundial in one of the narrow garden paths. About the base of the dial tall white garden lilies were growing, and Harry thought of Leopold Sarto's words as he saw her standing in her white dress among them.

She wore a shade hat and loose gardening gloves and held a pruning knife in her hand. In spite of the roses and the sunlight there was something tense and almost tragic in the picture she made. She was talking in low, eager tones to a tall broad-shouldered man, who was evidently the gardener. He resembled his brother, John Anning, but he was younger, and his weather-beaten face was comelier and more expressive than that of the farmer.

George Anning was indeed listening to his mistress with all his soul in his eyes; and Harry, coming quietly along the cloistered way, drew so near to them without being observed that the tones of Lady Anne's voice, raised a little in her excitement, were borne to him.

"I tell you, George, it will kill me! I cannot bear it any longer."

As she spoke the man suddenly perceived Harry, and put his finger to his lip. Lady Anne started violently, and waited for a moment, as though to compose her features before she greeted the newcomer. Then she bowed coldly enough, and did not offer him her hand, which he had only once touched, on the evening when she had helped him down the broken steps among the ruins.

"This is my rose garden, Mr. Worth," she said while George Anning, after bestowing a somewhat malevolent look on Harry, walked away. "I have a good collection, have I not?"

She seemed hardly to listen while he praised the flowers, but watched the retreating figure of the gardener. As soon as he was lost to view her manner changed.

"I have sent for you, Mr. Worth," she said eagerly, "because I want you to tell me something!"

CHAPTER XIX.

Lady Anne Breaks Down.

"Come with me into the fruit garden," Lady Anne said. "Here one is so overlooked by the windows of the house it is impossible to talk naturally."

Then, as she noted a look of surprise on his face, she added, with a slow smile:

"Mine is such a strange household, you see, Mr. Worth."

"I know."

"How do you know?" she asked quickly, with a note of proud suspicion in her voice.

"I heard about it from your French maid," he replied.

Lady Anne frowned.

A silly, empty-headed chatterbox," she said as she stopped before a standard rose tree and clipped a twig. "What nonsense did she repeat to you?"

"She told me what increases the deep respect I had for you already."

Of your goodness to a poor, paralyzed old man, and to some other amiable persons whom you befriend."

Lady Anne stood quite still for a moment.

"Did she say anything more?" she asked in a constrained tone.

"Very little. Some chatter about a man who called and wanted to see you."

"It was abominable impertinence!" Lady Anne broke in. "Years ago these ruins were shown to visitors, and some man had the impudence to push past Mrs. Jessop at the gates yesterday and walk up to the house while I was out."

"The man is impudent enough for anything," Harry observed. "I have met him."

"Really! Where?"

"In the grounds of Lyllyngton Court, the day before yesterday."

"Ah, yes! It is about that walk of yours I wish to speak to you."

She led him through a breach in the ruined wall to a more haunted portion of the grounds. Here apples and pears were trained in the French fashion on wires along the borders of beds given up to strawberries and to asparagus; peaches ripened on a sunny wall, and glass-houses sheltered vines and tomatoes, while beyond stood a little forest of fruit trees.

Lady Anne led him to a seat near an old well. A child, who was playing with a toy horse near it, rose and fled at her approach.

(To be Continued.)

BORDERING ON THE MIRACULOUS

JOHN McELROY'S HEART TROUBLE CURED BY DODD'S KIDNEY PILLS.

Could Not Work All Summer, and Doctor Failed to Help, but Cure Was Quick When He Used Dodd's Kidney Pills.

Benton, N. B.—(Special).—Bordering on the miraculous is the cure of John McElroy, a young man well known here. He was suffering from heart trouble and was so bad that all last summer he was not able to do a day's work. Dodd's Kidney Pills cured him. In telling the story of his cure, Mr. McElroy says:

"I went to a doctor, who said I had palpitation, but his medicine did not seem to reach the spot. I suffered for over a year and all last summer I was not able to do a day's work. My sleep was broken and unrefreshing. I felt heavy and sleepy after meals, and I was always tired and nervous. I perspired freely with the least exertion."

"After I had finished taking the doctor's medicine, and as I felt no better, I read in an almanac what Dodd's Kidney Pills could do and made up my mind to try them. Before I had finished the first box I felt different, and by the time the second was half gone I was working in the woods and doing good work."

The Heathen Chinese.

The Stratford Herald says that in a Chinese shipwreck the rule is to save men first, then children, then women, the theory being that men are most valuable to the state, while destitute women are a burden. However, we must remember that things are changing in China.

Amy—Why, did Miss Antique discharge her butler?
Mamie—He boasted that he had grown gray in her service.

Keep Minard's Liniment in the house.

"We've a brand new mahogany piano," said Mr. Cumrox. "But nobody in your family can play it." "Yes, that's the best thing about it."

How to REMOVE SUPERFLUOUS HAIR From the Face, Arms and Neck Told Free Society women and actresses all over Europe are strongly endorsing a new marvellous discovery of how to remove superfluous hair from the face, arms and neck. This new discovery is now for the first time introduced into Canada. Any woman afflicted with the growth of superfluous hair can obtain the information free of charge. Send your name and address together with a 2 cent stamp to Madame Fayard, Room 25, Stobart Block, Winnipeg.

Which is his

THERE'S no mistaking the expression of a man whose farm is well "improved." He looks as prosperous as he feels.

It isn't the size of a place that counts most, nor its actual dollars-and-cents value. It's rather that "well-kept," thrifty appearance; the appearance that makes you think of fat stock, and well-filled barns, and comfortable, contented living.

Neat, permanent improvements go further in giving a farm this appearance than any other feature.

Concrete Is The Ideal Material

for such improvements. It is neat, harmonizing with its surroundings in the country. Everlasting, it cannot be injured by fire, frost, wind or lightning. Age—instead of causing it to decay—actually makes it stronger.

Concrete never needs repair—first cost is last cost. New improvements can be added year after year with less expense than would be required to keep wooden structures in repair.

Concrete walks, feeding floors, dairy-barns, ice-houses, root-cellar, well-curbings, fence posts, silos—which of these does your farm need most? Whatever you want to build, it's best to build it of concrete.

Do you want to know more about this subject of permanent farm improvements? Then write for your copy of

"What The Farmer Can Do With Concrete."

It's a book of 160 pages, telling how other farmers have used the "handy material" to good advantage. Published to sell at 50c. a copy, it is now being offered free to all farmers who write for it. Address

Canada Cement Co., Ltd., 53-53 National Bank Building, Montreal.

A STRONG NAVAL POLICY WILL BE ADOPTED BY CANADA

At Canadian Club Dinner in London Premier McBride Speaks of the Sentiment in the Dominion in Favor of an Active and Efficient Canadian Navy.

London.—At a Canadian club dinner, Sir E. S. Ross presiding, the Lord-Mayor and Sheriffs Hanson and Briggs were the chief guests. Among others present were Hon. Richard McBride, Sir Frederick Borden, Hon. Colin Campbell, John Hendry, Sir S. Graham, Donald McMaster, Hon. J. H. Turner, the Bishop of Saskatchewan, Major Malcolm Murray, Col. J. H. Burland, General Elliott, Captain and Lieut. Hanson and Sir T. Skinner.

Colonel Burland responding to a toast to the imperial forces eulogized the work done by Sir Frederick Borden for the militia. That body was unwilling to be classed as imperial reserves, but wished to be counted in the firing line from the first he remembered.

Premier McBride, responding to a toast to the Dominion, referred to the wonderful success that the Duke of Connaught was achieving in Canada and the gratification that his Royal Highness intended to make a western journey was creating. He suggested that the Lord Mayor should pay Canada a state visit on lines of his continental visits. The loyalty and patriotism of Canada had never been questioned, continued the speaker, but lately it has been intensified by political exigencies which perhaps it would

not be fitting to enter into here. Proceeding to discuss the navy question, Premier McBride said:

"I assure you intense interest is being taken in this question. We have assurance from Premier Borden that the government proposes to take up this question at once and deal with it effectively. We in British Columbia are reminded day by day of all that a navy means. I have confidence in Premier Borden's proposals, as he will do shortly, a strong policy making for an active and efficient Canadian navy he will have the entire Dominion behind him. One is very much encouraged to believe that there will be results and quickly, too, when one has watched the earnest, splendid fashion in which the first Lord of the Admiralty, Winston Churchill, has discharged the duties of his office. Without meaning any reflection to his predecessors, I think I may safely say that Mr. Churchill has made a name for himself unique in the annals of his department. I want to emphasize the strong determination of the Canadian people so far as I can gauge it to deal with this question quickly and we may expect good results from the fact that at the head of the admiralty there is such a strong personality as Mr. Winston Churchill."

SIX GOOD JOBS TO BE FILLED.

Trade Commissionerships for Canada in Half a Dozen Places Open.

Ottawa.—S. A. D. Bertrand, Canadian trade commissioner in Brazil, has been granted an order in council leave of absence for six months, and at the expiration of that time no will retire from the service. The retiring commissioner was appointed in 1911 and came from Winnipeg. This now leaves six commissionerships to be filled. The vacancies are Brazil, Cuba, China, Germany, Holland and France. The appointments to these positions will be announced shortly.

Look for Anti-Foreign War.

Paris.—Unrest among the natives of Morocco is causing grave apprehension at the war office.

It was officially announced that 5,000 troops have been ordered to start immediately to reinforce the French forces now in that country, and the government has planned to send other detachments should it become necessary.

The unrest that culminated in the Fez massacre is thought to be spreading throughout the country. Fears are entertained that a general anti-foreign uprising is being planned.

New Field for Trade.

Ottawa.—The possibilities of developing a market for Canadian furniture in Argentina is suggested by a report received at the department of trade and commerce from the Canadian commissioner in that country. Practically all of the furniture used in Argentina is imported. Last year over a million dollars worth was imported from the United States. Only \$700 worth was bought from Canada.

Get 170,000 Americans This Year.

Ottawa, Ont.—That Canada this season will draw from the various states across the border 100,000 immigrants, is the estimate of W. J. White, inspector of United States agencies for the Dominion, who is in Ottawa. The estimate given by Mr. White is a considerable figure increase over the figures of last season, when 133,000 crossed the line to Canada.

U. S. Issues 3-Cent Coins.

Washington.—The government has issued orders to the United States mint to issue cent and three-cent coins.

Embargo on Fodder and Cattle.

Ottawa.—An order-in-council has been passed prohibiting for three months the importation into Canada of any hay, straw, fodder or food stuffs accompanying horses from continental Europe. The importation into Canada of cattle from Great Britain, Ireland and the Channel Islands on steamers carrying horses from the continent is also prohibited. Fear of glanders has led to these orders.

Connaught May Open Building.

Edmonton.—It is possible that the Governor-General will formally open the new parliament buildings. The question has been discussed by Mayor Armstrong and a committee at the city hall with the result that His Worship will confer with Premier Sifton and seek his views on the matter.

Nesbitt to Take Habeas Corpus Route.

Toronto, Ont.—Dr. W. Beattie Nesbitt, through his Chicago counsel, W. K. Pattison, will probably make application for release under a writ of habeas corpus before Judge Carpenter of the United States federal court at Chicago.

KILL BEAVER IN CYPRESS HILLS

Colonies Now So Numerous That Lands Are Being Flooded.

Swift Current.—Provincial game wardens are reducing the beaver colonies in the Cypress Hills, southwest of Swift Current, under government instructions on account of the flooding of lands in times of high water along streams inhabited by these animals, and the consequent damage sustained by settlers. The colonies have grown quite large under the immunity which they have enjoyed for some years, and their dams are now so numerous that the small rivers and creeks are choked with them. The government will sell the skins, and the farmers on whose land the animals are killed will receive forty per cent. of the proceeds. They will also receive some slight compensation in addition for any damage they may have sustained by having their land sufficient number of beaver will be left to insure their propagation and to prevent their extinction.

Big Schemes to Protect Forests.

Ottawa.—An aggressive fire protective and forestry policy is being carried out by the government and next summer the work of preserving the natural resources of the west will be carried out.

Complete arrangements have been made for a strict fire patrol all through the prairie provinces in the newly annexed territory of Manitoba and in the hinterlands of Saskatchewan and Alberta.

A great deal of money will be spent this year in organizing the new 3,000,000 acre forestry service on the eastern slope of the Rockies. Trails will be laid out, telephone lines installed and thorough preparations made to prevent fires.

Aborigine Gets Medal from King.

London.—King George has awarded the Albert life-saving medal to an aboriginal Australian named "Neighbor." The latter was a prisoner and was being led by a neck chain by a trooper. While the pair were crossing a swollen stream the trooper's horse got into difficulties and dislodged his rider, whom he kicked in the face.

The trooper was being swept off by the stream when "Neighbor," scornful of the opportunity to escape, rescued his captor after the greatest difficulty.

Brides Arrive for Western Husbands.

Montreal.—Twenty-five brides-elect bound for Western Canada to join grooms-elect, trooped off the C. P. R. steamer Lake Champlain when it arrived here recently. A majority of them are Scotch girls, the remainder being English. Most of them belong to the agricultural class. Their fiancés, it was learned, have none of them been more than two years in the West, but have prospered to such an extent that a bachelor's expenditure is now by no means the limit of their incomes.

TOTAL METHODIST VOTE 8 TO 1

Official Figures on Church Union Show 63,166 for; 8,040 Against.

Toronto.—Official figures of the Methodist vote on the question of organic union between the Presbyterian, Methodist and Congregational churches of Canada just compiled show that the proportional vote is almost eight to one in favor of present proposed basis.

Three hundred and sixty-nine congregations have sent in their vote showing 63,166 ballots for union and only 8,040 against. The figures show 48,403 members over eighteen years of age in favor of union and 6,333 against.

SEPARATE AGREEMENT.

This Unique Suggestion Is Causing No Little Curiosity.

London.—William O'Brien, leader of the Independent Nationalists, in a letter to the Times, asks whether the country has not materials for a friendly consultation and a national compromise on the Home Rule question.

Pointing out what he regards as indication in this direction Mr. O'Brien says that while nobody on the ministerial side now laughs at Ulster's discontent, no Ulster leader has yet pledged himself to resist any settlement arrived at with the understanding that it has the approval of England.

The public is taking small interest in the Home Rule debate.

Considerable curiosity has been aroused in the course of the debate during the second reading of the question put to the opposition by Mr. Winston Churchill, Sir Edward Grey and other ministers, as to whether they would agree to the Rome Rule bill if Ulster would be excluded. This has been interpreted in some quarters to mean that the government is inclined to consider an arrangement dealing with Ulsters separately to consider an arrangement dealing with Ulster separately.

SIFTON IN WESTERN GAS FIRM.

P. Burns, C. P. R. and C. N. R. Join in Big Scheme to Supply Natural Gas.

Calgary, Alta.—Hon. Clifford Sifton, chairman of the commission on conservation, was in Calgary recently. Although he avoided publicity, his visit is known to have to do with the business of the Canada Western Natural Gas, Heat, Light and Power Co., of which he is supposed to hold a large percentage of the stock. In this connection his name is mentioned with that of P. Burns, the C. P. R. and the C. N. R., all supposed to be interested in the big undertaking of piping gas from Bow Island to this city and to intermediate towns.

Great Bank Merger.

Toronto.—The News says: "The greatest banking merger, not only in the annals of Canadian banking, perhaps in the history of the world is being consummated according to information received by The News. The first step in the big merger will be the taking in of the Union Bank by the Bank of Montreal. When this purchase is consummated the enlarged Bank of Montreal will amalgamate with the new Royal Bank (Royal and Traders). The final product will be an institution with an authorized capital of at least \$39,000,000 and a paid-up capital of \$32,377,920."

Many Newcomers for West This Year.

Winnipeg.—"I should not be surprised to see immigration into Western Canada exceed 400,000 this year," said C. E. McPherson, assistant passenger traffic agent of the C. P. R. "Our returns, as well as those from other lands, show that the arrival of newcomers from the United States for the past four months is between 75 and 80 per cent. in excess of the corresponding period last year. There is also a big movement from the British Isles."

Baby Takes Airship Flight.

Paris.—The youngest airwoman made her first flight yesterday. She is Mile. Brodin, and is just four years old. Her father received his airman's certificate on Friday, and made his first independent flight over Etampes yesterday, taking his daughter with him. The young airwoman gave her opinion of flying in two words. "Up again!" she said.

Chicago Drainage Canal.

Ottawa.—The decision of the United States secretary of war, Stimson, regarding the Chicago drainage canal scheme, which was so strongly opposed by the Canadian government and interests, is expected within a few days. Should the decision be unfavorable to Canada, it is probable that an appeal will be made to the joint international waterways commission.

Decorate Grave of Dickens.

Over the grave of Alfred Tennyson Dickens, the son of the north-east, a service in memory of his father was held under the auspices of the American Dickens league. The grave in Trinity cemetery was decorated with flowers from the Dickens societies.—New York Sun.

Flour Up 10 Cents a Barrel.

Winnipeg, Man.—Owing to the continuous upward tendency of the wheat market the Western Canada Flour Mills Company announce an advance of ten cents per barrel on their various brands.

King Nicholas Seriously Ill.

Cettinje, Montenegro.—King Nicholas is seriously ill and owing to his advanced age there is considerable anxiety as to the outcome.

Harry Lauder Breaks Down.

London.—Harry Lauder, the Scotch vaudeville performer, is seriously ill of an internal ailment, caused by overwork.

"I see," said Wiggles, "that Bobby Fancier and his wife have got a divorce."

"Really?" said Jiggles. "What a sad case. Who gets the custody of the poodle?"—Harper's Weekly.

THE MARKET REPORT.

Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.

After the passing of another week there has been no development of new features in the grain situation but a continuation of much the same conditions which have obtained for the past few weeks. Weather conditions as affecting the growth and development of the United States winter wheat crop, and the planting of the spring wheat crops in North Dakota and Western Canada, are for the time being the things which the grain trade are watching, with, we think, keener interest than usual, and which influence the world's wheat markets almost more than any other factor. No one interested in the grain trade, who is ordinarily well informed on these matters, doubts now that America is certain to raise the smallest winter wheat crop she has done for several years, and that it will put the United States absolutely on a domestic basis for another year at least. It is frequently stated that the failure is so complete in many districts of the soft winter wheat states that the crop experts have not reported it so bad as it really is. This last week the reports have been coming mostly from Kansas and Nebraska, and in these states a good deal of the crop is in excellent condition, but even in them there are districts of comparative if not absolute failure, and in Kansas it is stated that from 800,000 to 1,000,000 acres will be abandoned and sown to oats, or plowed up to plant with corn. The May crop of the United States Agricultural Department will be issued shortly. Among other things it will give an estimate of the winter wheat acreage abandoned and the condition of the growing crops as on May 1st. No doubt it will indicate the prospect of a very small crop of winter wheat. Mr. B. W. Snow, the crop expert, has issued his May report, and puts the condition of the United States winter wheat at 75.9 with an abandonment of 18.2 per cent. of the acreage planted, indicating a probable yield of 358,000,000 bu. against 421,000,000 bu. the final government estimate for the yield of 1911. As a rule, Mr. Snow's estimate and the government estimate are very close to each other. The lowest estimate of conditions on May 1st by the government in the last fourteen years was 76.2 in 1899. In 1911 it was 86.1. Owing to an abundance of rain everywhere over the winter wheat crop except in the state of Kansas, during the last several weeks, accompanied by a temperature a few degrees below the normal average; growth is backward and unless very warm, dry weather comes in May and June the winter wheat harvest will be delayed. Last year owing to the dry, hot weather it was very early. In seedling of the spring wheat Southern Minnesota and South Dakota got started early and seedling is finished over these areas. In Northern Dakota, however, and Northern Minnesota and over most of Western Canada, although there are spots where seedling was done early, the bulk of it has not made seasonable progress. This results from the broken weather with snow and rain, which has been coming at intervals since the middle of April. There are districts in Manitoba and Saskatchewan where little or no wheat has been sown yet. The temperature has been below the normal for the time of year and unless the rainy weather stops at once and a good steady spell of fair weather sets in, it will curtail the acreage that might have been put under wheat for the season is advancing and getting too late to prudently sow wheat. The wet weather has also hindered general farm work of which so much more than usual was left over from last fall. The fact that the damage reports to the United States winter wheat has been to stimulate the speculative markets and keep prices up, but during the week fluctuations in prices have been erratic and towards the end, there has been a decline from the high points reached during the week. This, of course, is natural in speculative operations, but does not necessarily imply any particular weakness in the strong situation and a decline now is likely to be followed by advances later. The statistical situation is still working mostly against bullish hopes. The only item favoring the bull side is a decrease in the United States visible supply of 2,217,000 bu., against a decrease of 1,713,000 bu. a year ago. This leaves the aggregate United States visible at 492,843,000 bu., against about 30,000,000 bu. a year ago. World's shipments were larger last week as compared with last year having 11,760,000 bu. against 11,088,000 bu. last year. The delayed Argentine shipments bulked in largely last week, causing the larger aggregate, and the same is likely to happen this week again. The quantity of ocean wheat is now 54,080,000 bu. against 51,028,000 bu. a year ago. The Canadian visible supply increased last week 216,000 bu. against a decrease of 2,500,000 bu. last year, the total now being 31,408,000 bu. against 11,081,000 bu. a year ago. In regard to ocean prospects outside of America and Canada there is no special change reported regarding the progress of European crops which may be taken as showing an average prospect for the time of year.

THE SUNDAY SCHOOL

Lesson VII. — Second Quarter, for May 19, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Matt. v, 17-26. Memory Verses, 17, 18—Golden Text, Rom. xiii, 8, R.V.—Commentary Prepared by Rev. D. M. Stearns.

The gospel by Matthew is in a special sense the gospel of the kingdom, and the key word of the kingdom is righteousness, absolutely perfect according to the interpretation of the commandments here given by our Lord, from which we learn that a sinful look breaks a command as much as an act, and from Jas. ii, 10, we learn that "whoever shall keep the whole law and yet offend in one point is guilty of all." It must be an inward righteousness of the heart, not like that of the Pharisees, of whom our Lord said that, although they appeared righteous outwardly to men, they were within full of hypocrisy and iniquity, outwardly whited sepulchres, inwardly all uncleanness (Matt. xxiii, 25-28). In our lesson He says in no case can such righteousness enter the kingdom (verse 20), and in Isa. lxi, 6, we are told that all our righteousnesses are as filthy rags. Concerning the kind that God requires we are told, "There is none righteous—no not one," and when we are brought face to face with the law every mouth is stopped and all the world guilty before God (Rom. iii, 10, 19). Men have many standards. God has but one, called "the righteousness of God" (Rom. iii, 5, 22; x, 3; II Cor. v, 21). In verse 17 of our lesson He said that He came to fulfill the law and the prophets; and to John the Baptist He said: "It becometh us to fulfill all righteousness" (III, 15). There was neither law nor failure in His righteousness. He could truthfully say: "I do always those things that please the Father," and the Father testified concerning Him: "This is my beloved Son, in whom I am well pleased" (John viii, 29; Matt. iii, 17; xvii, 5). He was the Lamb without blemish and without spot. He knew no sin; He was holy, harmless, undefiled and separate from sinners (I. Peter, i, 19; II, 22; II Cor. v, 21; Heb. vii, 26). His was righteousness indeed, and nothing short of His perfect righteousness can enable any one to appear before God acceptably. The case on our side is therefore utterly hopeless as far as any efforts of ours are concerned, for "by the deeds of the law there shall no flesh be justified in His sight" (Rom. iii, 20). The very best that man can do comes far short of His perfect righteousness. What a gloomy out-view means whereby we need not be visited means whereby we need not be driven away from Him (II Sam. xiv, 14). Not only did the Son of God give in His life a sample of the perfect righteousness which God requires; but, having no sin of His own, He bare our sins in His own body on the tree. There was laid on Him the iniquity of us all. He was made a sin offering for us, and when we plead guilty and receive Him we become accepted in Him and He is accepted for us, as it is written in the law concerning the guilty man and his perfect offering, "It shall be accepted for him" (Lev. i, 4). The priest had no need to examine the man—he pleaded guilty—but he did examine the sacrifice, and if it was without blemish, according to the law, the guilty man identifying himself with his perfect sacrifice by laying his hand upon it was accepted because of his sacrifice, and the blood was shed, the life laid down, for it is the blood that maketh an atonement for the soul (Lev. xvii, 11; Heb. ix, 22). What a wonderful redemption it is, and wholly of the Lord. He took my place as a guilty one and suffered in my stead, making an end of my sins, that I might take His place before God, clothed with His righteousness. How wonderfully beautiful are such words as "justified freely by His grace"; "made unto us wisdom, righteousness, sanctification, redemption"; "in whom we have redemption through His blood, the forgiveness of sins." Yet there are multitudes in so-called Christian lands, churchgoers and church members, who, being ignorant of God's righteousness and going about to establish their own righteousness, have not submitted themselves to the righteousness of God, not understanding that Christ is the end of the law for righteousness to every one that believeth (Rom. x, 3, 4; III, 24; I Cor. i, 30; II Cor. v, 21; Eph. i, 6, 7). If our eyes have been opened to see these glorious truths, let us joyfully sing, "I will greatly rejoice in the Lord; my soul shall be joyful in my God, for He hath clothed me with the garment of salvation. He hath covered me with the robe of righteousness" (Isa. lxi, 10). As quickly as Joshua, the high priest, lost his filthy garments and the devil for a companion and received beautiful raiment and the Lord for his friend (Zech. iii, 1-5), so quickly may any sinner who is ready to plead guilty and receive as a free gift the perfect righteousness of God in Christ pass from death to life and begin to live the new and blessed life of a child of the kingdom, a joint heir with Christ, proving to others by such love as that of last lesson that God is love and not willing that any should perish (I. John iv, 8, 16; II. Peter iii, 9).

A single vessel recently carried feathers, valued at \$600,000 from South Africa to England.

Money is Tight

But there are people who are constantly looking for opportunities to lend money on good security. If you want to borrow a few dollars, or a few thousand, our Want Ads. will put you in touch with those who have money to loan.

MALE HELP WANTED.

Railway Agents, Telegraphers and Clerks in great demand throughout North-West. Six months will qualify you. Day and Mail Courses. Positions secured. Free book 19 explains. Dominion School Telegraphy, Toronto.

"Which is correct," asked a poultry instructor of her class, "to speak of a sitting hen or a setting hen?" "I don't know," replied an interested student, "and, what's more, I don't care. But there's one thing I would like to know. When a hen cackles, has she been laying or is she lying?"

W. N. U. 998.

Quips.

To rise, to settle down. Many a man will devour a girl with kisses, only to find after marriage that she disagrees with him. There is room at the top—still more at the bottom. Don't marry a man to reform him, girls, unless you have a good profession or trade. If in hot water, take comfort from the thought that you will soon, like an egg, get hardened to it.

A Cure for Fever and Ague.—Disturbance of the stomach and liver always precedes attacks of fever and ague, showing derangement of the digestive organs and deterioration in the quality of the blood. In these ailments Parmales's Vegetable Pills have been found most effective, abating the fever and subduing the ague in a few days. There are many who are subject to these distressing disturbances and to these there is no better preparation procurable as a means of relief.

Has Bones Badly Beaten.

Nip—Bones is speaker of the house and only 30. Tuck—That's nothing! My wife became speaker of the house as soon as I married her and she was only 22.

SPASMS OF COUGHING

And Frantic Gasping for Breath Common to Bronchitis and Asthma.

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Both bronchitis and asthma are diseases of the nerves as well as of the bronchial tubes, and for this reason only slight irritation or excitement is required to bring on the terrible coughing spells and frantic gasping for breath.

There is nothing like Dr. Chase's Syrup of Linseed and Turpentine to bring relief to sufferers from bronchitis and asthma.

It soothes the irritated nerves, eases and prevents the attacks of coughing and enables the system to throw off the disease. In fact the great popularity of this medicine is largely due to its success in curing bronchitis and severe chest colds.

Since permanent recovery depends largely on getting the nervous system thoroughly restored, Dr. Chase's Nerve Food is of the greatest assistance in revitalizing the wasted nerve cells. This combined treatment is ideal as a cure for bronchitis and asthma, for, while the Linseed and Turpentine brings relief to the organs of respiration, the Nerve Food restores the body to full health and strength, and enables it to fight off disease.

There are many imitations of Dr. Chase's Syrup of Linseed and Turpentine. The portrait and signature of A. W. Chase, M.D., are on every bottle of the genuine; 25c a bottle, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Death Duties in France.

Paris.—The British chamber of commerce in Paris has again petitioned the chancellor of the exchequer with regard to the double imposition of death duties on the estates of British residents in France, and asking for the same reductions as are allowed in the case of residents in the colonies.

Minard's Liniment, the Lumberman's Friend.

Physician at Watering-place (to patient's husband)—And after all, the great thing for your wife is exercise. Does she take any?

Patient Husband—Take any! I should say she did. Why, doctor, she changes her dress at least six times a day.

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

"Was it an elaborate dinner?"

"Very."

"Plenty of champagne?"

"Flowed just like water, but that wasn't the chief display."

"That so? Were the favors unusual?"

"They were of solid gold. But what really attracted the most attention was that there seemed to be an unlimited supply of butter."—Judge.

Minard's Liniment used by Physicians.

Of all the sad words we see in print and this is a general rule.

Are those conveying the daily hint, "Unsettled with rain, and cool."

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Bacon—Somebody said there was something stunning about your wife's new dress. I don't see it.

Egbert—Of course, you don't. You don't suppose she'd leave the price mark on it, do you?

STANDARD Gas Engine Oil

gives the best lubrication possible, alike in kerosene, gasoline and gas engines. Keeps its body at high temperatures. Equally good for external bearings.

Mica Axle Grease

saves power and fuel in your tractors. The best known, most liked axle grease made. Never rubs off. Never gums.

Silver Star Engine Kerosene Oil Gasoline

Granite Harvester Oil—The short cut oil; specially prepared for use on reapers, binders and threshers. Greatly reduces friction and wear. Body not affected by moisture or change of climate.

Capitol Cylinder Oil—The very best oil for steam plants on the farm. Lasts longer and gets more power from the engine, with less wear, than any cheap substitutes; costs less in the end.

Atlantic Red Engine Oil—Strongly recommended for slow and medium speed engines and machinery. Eases the bearings and lightens the load.

The Imperial Oil Co., Limited

"I Want You to Have My New Portable Granary"

"I have a money-saving invention—handy granaries to allow field threshing over your farm. Move them about each year. You save long hauls at harvest time. In spring you scatter small straw stacks—no burning of straw."

"These granaries come in compact bundles. A boy can set up and bolt one together in a few hours. Four padlocks protect the grain. Separator delivery into a spout on the side or into roof manhole—saves work during threshing. Your grain is protected from vermin, wet and thieves. I sell it where you are ready, loading direct from the granary into your wagon, or bagging it. No dusty or heated grain. Get my granary and be independent of elevators for selling. Sell at the highest price, no matter how long you store your grain. The Pedlar Granary protects you."

"Write me for my booklet. It shows how profitable my Granary is even on a single quarter-section farm. Use it for 1912. The Book Tells of Big Money for You."

"Whatever they happen to be overstocked with in Paris, I suppose."—Boston Transcript.

London.—A charity costume ball, which will probably be known as the ambassadors' ball, will be held at Olympia on June 3. The proceeds will be devoted to a charity or charities not yet selected.

HOW TO PRESERVE YOUTH AND BEAUTY.

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, young or old, should know herself and her physical make up. A good way to arrive at this knowledge is to get a good doctor book, such for instance, as "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D., which can readily be procured by sending thirty-one cents for cloth-bound copy, addressing Dr. Pierce, at Buffalo, N. Y.

The womanly system is a delicate machine which can only be compared to the intricate mechanism of a beautiful watch which will keep in good running order only with good care and the proper oiling at the right time, so that the delicate mechanism may not be worn out. Very many times young women get old or run down before their time through ignorance and the improper handling of this human mechanism. Mental depression, a confused head, backache, headache, or hot flashes and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women.

Mrs. G. H. WILLIAMS, of Lynnhaven, Va., wrote: "It is six years since my health gave way. I had female trouble and all the doctors (I employed three) said I would die. I was not able to do my work, had to hire someone all the time. Finally, I read in the papers about Dr. Pierce's Favorite Prescription, and decided to try it. I had not taken but one bottle until I found it had done me good. I took, in all, five bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery,' and now I am able to do all my housework, and have gained fourteen pounds. I advise all women who suffer from female trouble to try your 'Favorite Prescription.' It's the only medicine on earth."

Something to Take Notice of

We are in receipt of a map showing route of a "Made in Canada Exhibition Train, now on tour through Manitoba, Saskatchewan, and Alberta, being the most unique and interesting event in Canada's Industrial History. This is a "Travelling Exhibition" with twelve cars full of exhibits, Showing what Canadian workmen are doing. An illustrated lecture will also be given at every stop by G. H. Race, with free admission to every car. We notice from this map that this train will stop at nearly every town in the province of Alberta except Bowden. The reason "why" we do not know, unless it is at the fault of the citizens. This train is booked to stop at Olds from 7 p. m. on the 13th of June until 8 a. m. of the 14th of June, and will stop at Innisfail from 9 a. m. of the 14th June until 12 noon of 14th.

Showing the above time of stoppage between Olds and Innisfail there is no reason why our Board of Trade by enquiring into the matter cannot have this train chartered to stop at Bowden say for an hour between above times mentioned.

This being one of Canada's travelling exhibition trains, (the first and likely to be the last) there should be some arrangements made so as to let Bowden's citizens and the country people see what is being manufactured by Canada's workmen. An opportunity not to be missed. We hope by our next issue, to be able to say that the Board of Trade has made enquiry into the matter, and to be able to publish results, saying that they have been successful in getting this exhibition train to stop at Bowden.

Local Jottings

The adjourned meeting of the Court of Revision re the assessment of School taxes was held on Saturday morning in the school house. The minutes of the former meeting were read and duly approved, after some discussion the assessment roll was accepted and the meeting closed.

On Victoria Day, (this Friday), a lunch will be served by the Methodist Ladies Aid, in the room opposite the Sports Ground, by kind permission of Mrs. Roulston. A good meal will be served for 25 cents. Open at 12 noon and continuously all day.

If the weather continues as at present throughout the season no one, of the farmers need worry as to what the benefits will mean to the farmer. A large yield is sure to be the outcome, and this being the case everyone will share alike. Already large fields of grain are to be seen throughout the Bowden district with their coats of green.

Wetaskiwin has chosen a Calgary Newspaper man Malcolm M. Gillis as Publicity commissioner. Mr. Gillis has had wide experience in both the advertising and reportorial departments of many of the leading daily papers in the Canadian and American west.

L. J. Lancaster was a Calgary visitor last week.

Rev. F. E. Davies attended the District meeting held at Red Deer last week and returned to Bowden again on the 17th inst.

Mrs. Davies spent Thursday and Friday of last week in Innisfail.

P. Gillespie was home on Thursday last from Calgary.

Miss M. Rollans has accepted a position in T. Lancaster's store.

R. Newton, of Calgary was the guest of J. Hemming over the week end.

Shilo Siftings

Miss Lulu Dial left for Prairie Creek yesterday where she will attend a wedding.

The Rev. Barner of Red Deer assisted by Mr. V. M. Gilbert, our local preacher, dispensed the Sacrament in the North Raven School house last Sunday morning. The attendance was good.

Mr. J. N. Macdonald spent the week end the guest of Mr. Henry Dolphin.

Many farmers are through with their spring seeding and are busy getting their gardens planted.

Miss Lulu Dial and Miss Elsie Willett were guests at Sunny Slope Ranch last Saturday.

Messrs. Ray Dial and William Willoughby are looking for breaking to do. They are good workers and deserve all they can get.

Mr. Baker of Calgary has been visiting some of the residents around here in the interests of the J. A. Army Estate.

Mr. V. M. Gilbert has been visiting among his Caroline congregation all last week.
